AT THE REGENT THEATER TONIGHT

ALICE BRADY AT REGENT TONIGHT

Between a little roadside tavern in Italy and the happiness which comes to her in the great metropolis, Alice Brady, the star of "The Woman In 47," goes through a series of adventures and mishaps which make a photo drama of wonderfully compelling force and gripping intensity. She has been seen in other photoplays, and her face is familiar to lovers of the screen, but in this latest vehicle for the exploitation of her great dramatic powers she has exceeded even the highest expectations aroused by her previous work. The story itself is packed full of scenes and situations which the familiar and overworked word "thrilling" is too weak to describe, which must be seen to be appreciated, and when seen will leave an indelible impress upon the memory. The defence of honor, recovery of lost ground, and the final salvation of her happiness through the intercession of a kindly hearted minister with an ambitious reporter whose better nature overcomes his professional enthusiasm, are only a few of the vital points in this wonderful presentation. The play was produced by the Frohman Amusement Corporation for the Equitable program, and is in every way up to the high standard set by the Equitable's recent and forthcoming releases. It is coming to the Regent theater tonight.

Billy Reeves in a high class farce, "Billy's Double," and a Selig comedy will also be shown.

Some valuable prizes will be given away tonight on both adult and children's tickets. The winning numbers will be posted at box office.

Atttention! Royal Arch Masons.

A special meeting tonight, initiation, mark master degree. All members are requested to attend.

EASY TO DARKEN YOUR GRAY HAIR

Try this! Brush Sage Tea and Sulphur Compound through your hair taking one strand at a time.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is mussy and troublesome. For 50 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.

"THE SPOILERS" AT THE RICHMOND THEATRE THIS EVENING

Wm. N. Selig,s selection fits the "types" for the northern romance so admirably, that they cannot be surpassed. William Farnum was engaged to fill the difficult and doughty role of Roy Glenister, the hero, who, from being a civilized individual, reverts almost to the man primeval. He lives out his motto. "What I want I take," but his better part is eventually touched through the sweet and refining influence of a pure woman, to again return to true man militant. Every phase of this difficult character was finely and strongly drawn, never hesitant, and ever inspired by the motive of the moment, the hero becoming one in reality.

Sure and deft is the supreme work of Kathlyn Williams, as the great hearted adventuress, Cherry Malotte. No actress of the age in moving pictures, has achieved more distinction in certain directions—notably, intrepedity and emotional valuations, than Kathlyn Williams; yet this new line of work, which calls for protean play, ranging from the merriest, maddest moments, to the deeper things that tug a woman's heartstrings to the verge of a break, has remarkable value and variety, telling touching, imperious and winsome. It all rang strong, colorful and true, a sympathetic wonder-work in pictures?

Thomas Santschi, who has pleased long and many revealed himself masterfully in a character at once repellent and ruling, a remarkable differentiation that responded to every emergency with the resource of the cool, imperturbable man sure of himself; so that his evil dominates really gains the sypathy of the spectator. It would be difficult to recall a roll in this line of work finer in its proportionment, or more significant in sounding every sentiment of its kaeldoscopic changes, as the evil genius of the north.

Bessie Eyton, who has achieved distinction in both comedy and emotional lines, gives a singularly sweet and placid personality to Helen Chester, thei nnocent tool of the master mischiefmakers who would have chained up all the resources of the great new country.

"The Spoilers" will be shown at the Richmond theater this evening. Fifteen cents admission will be charged for the lower floor and ten cents for the gallery.

GIRLS' JINX

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanliness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.
